## Key Features

### Split Upper Body Elevation

This exclusive design allows you and your partner to elevate your upper body independently of one another.

### Knee Break Leg Elevation

It also breaks at the knees, allowing you and your partner to elevate your legs for increased blood flow and oxygenation.

### Non-slip Mattress

Our split queen bed base features side retainer bars and micro-grip for a safe and secure mattress.

### USB Charge Station

Recharge your energy and up to four mobile devices with 4x USB type-A ports (two on either side of the bed)!

### Customisable Legs

Our bed legs can be unscrewed to different heights: approx. 20cm, 18cm, 15cm, 13cm, 7.5cm, 5cm or 2.5cm!

### Whole Body Vibration

Drift away into deep sleep with whole body vibration therapy. Choose high, medium or low intensity and 20m timer.
